PROFESSIONAL SUMMARY

Full-stack developer with experience building scalable web applications using React.js and Express. Skilled in developing RESTful APIs, backend systems, and third-party integrations, with a strong foundation in modern web technologies and maintainable full-stack development.

EXPERIENCE

Full Stack Developer

May 2026 - Present

SATEZO

Pampanga, Philippines

- Develop and maintain scalable full-stack web applications using React.js and Express to support production features and user-facing functionality.
- Build and optimize RESTful APIs, backend configurations, and data handling workflows to improve application stability and performance.
- Establish clean, maintainable codebases and reusable components to support scalable feature development.

Backend Developer - Intern

February 2026 - March 2026

Nola Web Solutions

Pampanga, Philippines

- Developed and maintained backend features, RESTful APIs, and database-driven workflows to support internal and client web applications.
- Designed and developed a custom payment integration connecting GoHighLevel with PayMongo, enabling checkout creation, payment verification, webhook processing, refunds, and automated transaction synchronization between platforms.
- Collaborated with the development team to test, troubleshoot, and maintain application features for improved reliability and data consistency.

PROJECTS

Twitch Insights

- Built a full-stack web application that analyzes real-time Twitch chat sentiment using the RoBERTa NLP model and Twitch API.
- Developed interactive dashboards featuring real-time sentiment graphs, reporting tools, and word clouds to help streamers understand audience sentiment.
- Built with React.js, Tailwind CSS, Flask, and MongoDB to deliver a responsive, scalable, and user-friendly experience.

Personal Portfolio

- Built a responsive personal portfolio website using React.js and Tailwind CSS to showcase projects, technical skills, and professional background in a clean, modern layout.
- Designed reusable components and implemented Framer Motion animations with lazy loading to enhance user experience, performance, and smooth navigation.

Budget Tracker

- Built a scalable full-stack app using React.js, Tailwind CSS, and Supabase (PostgreSQL, Auth, Realtime) with secure authentication and Row Level Security (RLS).
- Implemented real-time synchronization and caching using Supabase Realtime and TanStack Query to deliver responsive cross-device financial tracking.

- Developed core features including accounts, transactions, budgets, analytics dashboards, and an AI assistant (Google Gemini API) for personalized financial insights.

NOLA PayMongo

- Developed a custom payment provider integrating GoHighLevel with PayMongo to streamline CRM-based payment processing workflows.
- Built using Laravel, MySQL, Tailwind CSS, and PayMongo API to support checkout sessions, payment verification, refunds, and transaction tracking.
- Implemented webhook handling, OAuth-based integration, and secure backend workflows to improve payment reliability and data synchronization.

TECHNICAL SKILLS

- **Language:** JavaScript, PHP, SQL, Python
- **Frontend:** HTML, CSS, Tailwind CSS, React.js
- **Backend:** Laravel, Express, Node.js, Flask
- **Database:** MySQL, MongoDB, PostgreSQL, Firebase, Supabase
- **Automation & Integrations:** GoHighLevel, n8n, REST APIs, Webhooks
- **Tools & Technologies:** Git, GitHub, Trello, Docker, Hostinger, GCP

CERTIFICATIONS

- Cloud Computing Fundamentals (IBM SkillsBuild)
- JavaScript Essentials 1 (Cisco Networking Academy)
- Introduction to IoT and Digital Transformation (Cisco Networking Academy)

EDUCATION

Bachelor of Science in Information Technology

2022 - 2026

Pampanga State University (former Don Honorio Ventura State University)
